- ◉ Compatible with all major online vendors
- ◉ Permanent or replaceable graphics
- ◉ Over a 10 year life span
- ◉ Easy Mounting System

Lottery Products

Wireless Jackpot Features

Changeability

Signs feature changeable graphic front plate - allows for easy introduction of new games and refreshing of graphics.

Modularity

It's easy to add a jackpot or two - just plug and play with existing sign, transceiver and lottery terminal. Choose horizontal or vertical mounting.

add a jackpot - horizontal

add a jackpot - vertical

Back Graphic Feature

Optimize retail real estate with messaging on reverse of sign. Graphic is easy to insert and change by hand.

Lottery Retailer Identification Signs

Identify lottery retailers and attract customers with an LED illuminated sign from Carmanah Signs. Energy efficient and with a life span in excess of 10 years, these signs will grab attention and draw players for many years to come.

Environmentally Responsible

Our signs are made with recyclable components and lit with LEDs. LEDs consume less energy, contain no mercury and never need to be changed - while providing bright, consistent illumination. LEDs allow for a slim profile that is not only contemporary, but also requires less packaging. Unlike other light sources, LEDs don't break during shipping and don't need to be replaced for the lifetime of the sign.

- 100% recyclable components
- Less packaging
- Low energy consumption
- Mercury-free LED light source
- No replacement bulbs required
