# Slot Signs

Carmanah's slot signage is designed to attract and inform players right at the point of play. We provide three unique sign products for the slot floor – each built with long life, bright LEDs.

## EvenLit™ Slot End Bank

- Available Sizes
  - 22" x 28"
  - 24" x 36"
- Custom mounting system allows easy access to machines

## Slot Toppers

- Affordable  
*(quantity price breaks available)*
- Versatile
- Changeable acrylic faces

## Large Double-Sided Slot Topper

- Size 60" x 20"
- 36" Poles
- Requires no screws for mounting

## Environmentally Responsible

Our signs are made with recyclable components and lit with LEDs. LEDs consume less energy, contain no mercury and never need to be changed - while providing bright, consistent illumination. LEDs allow for a slim profile that is not only contemporary, but also requires less packaging. Unlike other light sources, LEDs don't break during shipping and don't need to be replaced for the lifetime of the sign.

- 100% recyclable components
- Less packaging
- Low energy consumption
- Mercury-free LED light source
- No replacement bulbs required
